Islamabad, Pakistan

Portfolio: <https://iqra-portfolio.pages.dev/> | <https://www.linkedin.com/in/iqra-fatima-290903286/>

CAREER SUMMARY:

5+ years building scalable SaaS platforms, real-time systems, and AI-integrated applications. Strong in backend architecture, system design, and performance optimization using MERN, Next.js, and TypeScript. Experienced in designing production systems with real-time communication, payments, and cloud deployments in high-ownership environments.

RELEVANT EXPERIENCE

3D Smile Solutions LLC

Senior Full Stack Engineer | Sep, 2025 – Present

- Led architecture of a multi-tenant CRM platform (Node.js, PostgreSQL, React.js)
- Built scalable backend systems and optimized database performance
- Implemented real-time communication using WebSockets (replacing polling)
- Developed secure authentication (JWT, RBAC) and integrated Twilio (SMS/voice)
- Collaborated on system design and mentored junior developers

Independent / Contract

Full Stack Engineer | 2021 – April, 2026

- Built and delivered multiple SaaS and web applications using MERN, TypeScript and Next.js
- Designed REST APIs, backend systems, and modern frontend architectures
- Managed deployments (AWS, Vercel, Render) and ensured production reliability

RELEVANT PROJECTS:

OmnicidentAI CRM (SaaS Platform) | <https://omnicidentai-crm.vercel.app>

- Built CRM for clinics (workflows, communication) with Node.js + PostgreSQL
- Implemented real-time messaging (WebSockets) and Twilio integrations

AI-Integrated E-Commerce Platform | <https://euphoria-cloth.vercel.app/men>

- Developed a full-stack e-commerce platform with Next.js, MongoDB, PayPal payment integration, user/admin dashboards, and AI-powered chatbot for customer interaction
- Built scalable REST APIs and core commerce flows (products, cart, checkout)

Superrange – Car Repair & Auto Service Platform | <https://superrange.vercel.app>

- Collaborated as a Full Stack Developer to build a responsive Next.js and Supabase platform for automotive services, including landing pages, service listings, and blog sections
- Implemented appointment booking UI, contact forms, and service galleries.

EDUCATION:

2019 – 2023 | University of Gujrat

3.7/4 CGPA

Bachelor of Information Technology

SKILLS:

- Core: JavaScript (TypeScript), React, Next.js, Node.js, Express, Redux, Tailwind
- Backend/Data: REST APIs, PostgreSQL, MongoDB, Prisma, Supabase, Redis
- Systems: WebSockets, JWT Authentication, RBAC, Caching, Scalable API Design, Microservices, Nginx, Unit Testing
- Cloud/DevOps: AWS, Docker, Vercel, Render, CI/CD Pipelines
- Integrations: Stripe, PayPal, Twilio, OpenAI API
- AI-assisted development tools: Claude Code, Cursor, ChatGPT, Gemini, Lovable, v0
